Social Media	Online Assessment
Other	

TEL Strategy

Differences across institutions, systems and countries. Anglophone and francophone approach and mentality about learning are different. Thus, flexibility is needed in the implementation of OOFAT.

Business Model	
Fixed core model	
Defender-related characteristics versus Prospector-related characteristics	
Profitability / sustainability	
Networks	
Competitive advantage	
Value chain	
Communication channels	
Target group	
Products / services	

Business Model: Additional Information

The business model focuses on using digital technologies to reach existing markets via new or innovative channels using the same or similar products and services as in the past.

OOFAT Model

Interpretation: The closer the line moves towards the centre, the more fixed and institution-specific the approach taken by the institution. The further from the centre, the more flexible and open the approach.

OOFAT for multiple projects

OOFAT Model: Additional Information

Content
[data not provided]

Delivery
Flexible access to content is required. In this regard, traditional channels can be improved to provide the best support possible to learners. Assessment is learners is also to be made easier.

Recognition
Flexibility of assessment in collaboration with partners.
